Results are taken from a variety of sources. I would be happy to hear of any errors or indeed anyone I may have missed. Since the results are second and third hand they are not gospel and are not perfect.

If the needs column shows a number in red this indicates the score / points you need to get in your next race to get promoted. Unfortunately I cannot work out what position you need to get as this depends on the number of entries for the race.

The ranking is calculated for the division you are in relative to other paddlers in Scotland and is not the overall UK ranking. I can be contacted at scots@limekilns.plus.com with mistakes etc. Peter
